Tim: The hell, dude? I thought you were longer identifying yourself with Anon.
Tim: http://rt.com/usa/news/anonymous-drug-zetas-mexican-531/
me: I don't
me: I just do stuff and it's assumed I'm Anon because it's the stuff Anon should be doing
me: and a lot of Anons still come to me for help
Tim: So "Unofficial Anonymous spokesperson" ain't right?
me: I'm an independent operator
Tim: Who is behind this? You leading the charge?
me: well, the charge has stopped
me: the person who was released came back with note saying for every name released, 10 would die
Tim: I missed the news about someone getting released. Link?
Tim: And so what are you going to do with the names now?
me: not sure yet
Tim: Has it been reported yet that the Zetas released someone and that the someone had this note?
Tim: [tap, tap, tap] This thing on? Hello?
Tim: The Atlantic says that you are saying the release is still on.
Tim: http://www.theatlanticwire.com/technology/2011/11/anonymous-going-forward-its-mexican-cartel-leak-after-all/44513/
Tim: So what's the deal?
me: sorry, was on phone
me: it's no longer on, as such
Tim: Should I call you? Would that be faster?
me: the person is known to Zetas, who left a note with them
me: as such, we can't publish or release names at this point
me: from those e-mails, anyway
me: but I've got a number of other sources, informants now, as well as cartel experts who are ready to try something else
me: and also name of a U.S. DA who seems to be involved with Houstones gang
me: so working with CNN on that
Tim: Can I give you a ring?
me: sure
Tim: We've had a bunch of web traffic to your story on our server from Macallen, TX, on the border and from Mexico. Just so you know.
Tim: Let's hope the good guys are reading it and not the Zetas.
me: I imagine that the anti-Mexican types down there will join us

me: "For now, Mexico anxiously waits to see what Barret Brown will do."
me: If I had a nickel for every time I've heard that!
me: http://www.americasquarterly.org/node/3050
Tim: Yeah, saw that.
me: the game is Skyrim
me: it will be released on the 11th
Tim: This is a game you wrote? Coded? What?
Tim: http://frontburner.dmagazine.com/2011/11/04/barrett-brown-vs-the-zetas/
me: no
me: it's the sequel to morrowind and oblivion
me: the games I told you to get for your kid, plus fallout 3
me: when it comes out, I will take the day off
Tim: OH!
Tim: Got it. That's your Christmas and Halloween wrapped up in one.
